Serial No.: 09/479,648

Filed: January 7, 2000

For: METHOD OF APPLYING ADHESIVE COATED FILM

57. (AMENDED) A method of applying an adhesive-coated film to a substrate, the method comprising:

providing a film comprising pressure-sensitive adhesive coated on a major surface of the film;

heating the film to the softening point of the film using a heat source; and

pressing the film against a substrate with a Heat Neutral Pressure Source, the Heat Neutral Pressure Source comprising a Thermal Conductivity of less than 1.8 BTU/hr-in-ft²-°F, wherein the adhesive on the major surface of the film adheres to the substrate.
